## PROFESSIONAL EXPERIENCE

### Full Stack PHP Web Developer

Elewayte Bangalore Company | Nov 22-Feb 23

- Involved in both front-end and back-end development, working on user interfaces, server-side logic, and databases.
- I participate in team discussions, code reviews, and project planning sessions.
- Ensuring the quality and functionality of the applications I build will be an essential part of my role.
- I have encounter bugs, performance issues, or new feature requests that require problem-solving skills.

## PROJECTS

### E-Commerce Website

- Designed and coded responsive user interfaces using HTML and CSS, ensuring a seamless shopping experience across various devices.
- Integrated PHP to manage data, including product details, user profiles, and shopping cart interactions.
- Despite rigorous efforts, encountered challenges with the Payment Gateway integration, resulting in non-functional payment processing.
- Developed a deeper understanding of web security considerations and the intricacies of Payment Gateway integration

### Travel Website

- Conceptualized and implemented visually appealing user interfaces using HTML and CSS, ensuring an intuitive and captivating browsing experience for travelers.
- Utilized PHP to establish a backend system for storing and retrieving travel package information, allowing seamless updates to destinations, pricing, and itineraries.
- Encountered difficulties in getting the Picture Slide feature to function properly, which required extensive troubleshooting and debugging.
